### Measles Vaccinations Prior to Spring Break Travel

Measles is a contagious, airborne virus. There is a high risk of measles cases being brought back to B.C. due to ongoing measles outbreaks globally and decreasing vaccination coverage rates in Canada. [Public Health Agency of Canada](#) and the [Provincial Health Officer and the BC Centre for Disease Control](#) have issued statements advising individuals to check their measles immunization records and to vaccinate against measles prior to Spring Break travel. Vaccine appointments can be booked through [local public health units](#).

*Have a great Spring Break!*

*Bonnes semaines de relâche!*
